

## Foreword

I am pleased to present the 2013 Cavite Socio-Economic and Physical Profile, a fruit of pleasurable labor of the Research, Statistics, Monitoring and Evaluation Division of the Provincial Planning and Development Office.

This year's SEPP provides its readers with a comprehensive view and description of the province's statuses focused on different sectors of the society.

The province is on its right track considering the positive development in terms of industrial growth. The agricultural sector is also soaring up. The social sector is progressing in terms of better housing and health system in the province.

The vision of the province to become internationally competitive is taking place with the aid and success of various programs relative to information and communications technology.

May you find this Profile helpful in terms of statistics as basis for your researches.

We offer the completion of this document to our Creator, our Lord Almighty.

Thank you very much.
