

Message

It is my honor to present the 2021 Cavite Ecological Profile (CEP).

Data reliability is the cornerstone of effective nation-building. By providing accurate, relevant information, the CEP establishes a detailed framework that shall enable the Provincial Government to give the best possible care to our constituents. This shall allow us to enact policies that directly cater to the needs of the people, policies that will not only propel the economic growth of Cavite but also deliver a better quality of life for the Caviteños.

The CEP serves as a benchmark that indicates the Province's current state. It highlights significant data and presents the status of all variables that must be considered in policy-making. Plans developed with the aid of the CEP can efficiently target specific problem areas and bring more opportunities for progress and innovation. Through this, I am optimistic that we will be able to move closer to our goal of creating a "Safer Cavite, Better Cavite, Better Philippines."

Mabuhay ang Lalawigan ng Cavite!

A handwritten signature in black ink, appearing to read 'Remulla', written over a large, stylized circular mark.

JUANITO VICTOR C. REMULLA
Governor, Province of Cavite
